ABSTRACT

A glutathione derivative having a dramatically enhanced hematopoiesis promoting effect in the living body, said derivative being represented by the formula (I):

5

25

wherein, A represents H or a C1-C20 acyl group, R₁ represents a C1-C26 alkyl group or a C3-C26 alkenyl group, and R₂ represents H, a C1-C26 alkyl group, or a C3-C26 alkenyl group, provided that cases in which R₁ represents a C1-C10 alkyl group or a C3-C10 alkenyl group and R₂ represents H, a C1-C10 alkyl group, or a C3-C10 alkenyl group are excluded,

a salt of said glutathione derivative, or a colloidal composition that enables the safe and effective development of the effects of said glutathione derivative in the living body.
